ANNUAL REPORT

OF THE

COMMISSIONERS OF EDUCATION IN IRELAND,

FOR THE YEAR 1886-1887.

TO HIS EXCELLENCY CHARLES STEWART, MARQUIS OF LONDONDERRY,
SECOND LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND, &c., &c.

We, the Commissioners of Education in Ireland, constituted by Acts of Parliament passed in the reigns of their late Majesties King George the Third and King George the Fourth, respectfully submit to Your Excellency the following General Report of our proceedings during the year 1886-87.

In our last Annual Report we mentioned that we had submitted to the Educational Endowments Commissioners Schemes for the reorganization of the Endowments under our control. That Commission has now (25th June) published a draft Scheme for the future management of Monaghan School. At present Monaghan School buildings are vested in this Board, but beyond letting the premises at a small rent to Colonel Lloyd on behalf of the School, we have no connexion with it. The new Scheme proposes, *inter alia*, to transfer the title to the premises from this Board to a local Corporation. We do not feel called on to make any remarks on the merits of the Scheme.

As, however, in no other case has any determination as yet been arrived at by the Educational Endowments Commission as to what changes should be introduced, there still prevails the same unsettled state of affairs which we then pointed out as one of the causes which prevent parents from availing themselves of many of the schools under this Board as boarding schools. This uncertainty affects in the greatest degree the Royal Schools, and some of them have now ceased entirely to be used as boarding schools.

During the past year the Educational Endowments Commissioners visited many of our schools with a view to obtaining information preparatory to drafting Schemes for their future management.

We granted two Royal Scholarships last November—one to Fred. L. Boyd on the Armagh foundation, and the other to J. A. Thompson on the Cavan foundation: there were no candidates for the scholarships on the Dungannon and Baniskillen foundations.

We have, as usual, throughout the past year provided for the repair of the various school fabrics. In one or two cases, *e.g.*, Clonmel School, we have been, from want of funds, unable to carry out all the work of this kind advised by our architect; and at Raphoe and Banagher it has been necessary to pay for some small repairs out of the funds of other Royal schools.

ROYAL SCHOOLS.

The number on the rolls of these schools (omitting Carysfort as being but a primary school) on the 1st of February, 1887, was 164 (35 boarders and 129 day pupils), as compared with 181 (55 boarders and 126 day pupils) of the previous year. Classified according to religious belief, the pupils numbered 127 members of the Church of Ireland, as compared with 136 for the previous year; 9 members of the Roman Catholic Church, compared with 13 of previous year; 28 members of other Church bodies, as compared with 32 of previous year.

Armagh.—This school still remains in point of numbers the largest of the Royal Schools.

Banagher.—There is nothing to be remarked in the case of this school.

Cavan.—There is a slight increase in the number of pupils. We have authorized the Cavan Sanitary Authority to take, for the purpose of new waterworks which they are constructing, the water of Behey Lake.

Dungannon.—There is nothing to be remarked in the case of this school.

Enniskillen.—We have added a new English Master to the staff of this school. His services, the Head Master reports, have been very beneficial. The school is now practically but a day school; the number of day pupils has considerably increased, and the number is now as large as at any time since the opening of the Model School in Enniskillen, in 1869, an event which greatly diminished the supply of day pupils to the Royal School. As it seemed to us that the works of the Lough Erne Drainage Commissioners might possibly cause damage to the banks of Portora, we instituted enquiries on the matter. We have, however, been assured by the Engineer of that Commission that there is no likelihood of such result.

Raphoe.—We are sorry to say that the financial position of this Endowment is so bad that it would be necessary for us, under ordinary circumstances to reduce or wholly discontinue the allowance for Under Masters. Pending, however, the production by the Commissioners of Educational Endowments of a Scheme dealing with the Endowment, we have decided not at present to adopt this course.

Crysfert.—The Head Master of this school, John Wheeler, died on the 29th May last. He had been appointed as far back as 1839. This circumstance we duly brought under the notice of Your Excellency, in whom the power of appointment is vested. The school is but a primary school, and as the widow of Mr. Wheeler had always acted as Assistant Teacher in her husband's lifetime, and was willing to carry on the school until the usual end of the half year, we thought it well (as we have already had the honour to inform your Excellency) as a temporary arrangement, to allow her to do so. She has given us an undertaking to hold the premises as caretaker for the Board.

GRAMMAR SCHOOLS OF PRIVATE FOUNDATION.

Of the 78 boys on the roll of these three schools there are 73 of the Irish Church, no Roman Catholics, and 5 pupils of other Church bodies. We are glad to observe that Clonmel and Middleton show an increased number of pupils, especially of boarders.

We drew attention in last year's Report to the fact that one of the two schools founded by Alderman Preston, viz., Ballyroan, had at that date practically ceased to exist, and we stated that we had ascertained from the Head Master that there were no inhabitants in the neighbourhood to send their children to the school. Mr. Mahaffy reported, as far back as 1880, that it was then impossible that the position of the school should ever become suitable for the purpose. Under these circumstances we can do nothing but save as much as possible of the Endowment for the purposes of some future Scheme. We proposed, in the Scheme submitted by us to the Educational Endowments Commissioners, to unite into one fund the Endowments of Ballyroan, Navan, Clonmel, and Middleton Schools, for the future support of the three latter schools, by which means it seems to us that the double advantage may be obtained of increasing and rendering less fluctuating the Endowments of all three.

Middleton.—We are here erecting a covered shed of wood, and providing in it gymnastic apparatus for the use of the boys. We are providing also a quantity of new school furniture, which the Head Master reported was needed. The school is making decided progress, especially in the boarding department.

Navan.—At this school also we are providing new school furniture.

Clonmel.—The Head Master here has, at his own expense, provided the school with a cricket ground. We made a small grant towards some improvements in it, but want of funds prevent us bearing any further part of this expenditure. This school shows very decided progress.

TENANTRY SCHOOLS.

These four schools (on the Dungannon, Raphoe, Armagh, and Cappaloughlin Estates) are all in connexion with the National Board. They are well attended, there being 427 pupils in all, and the average attendance at each school is also very good.

NON-VISTED SCHOOLS.

We have no remarks to make on these schools.

ESTATE MANAGEMENT.

The collection of rents this year on some estates has been a matter of very great difficulty, owing to the extravagant demands and combination of tenants. Indeed, on the Raphoe estate, our agent was unable to collect any rent at all until the month of June, when—he having with very great difficulty carried out some evictions—the tenants gave way and began to pay. Our agent, however, has had to allow time to the tenants until the middle of August, and he therefore cannot close his annual account until after that date. For this reason we have had to leave the particulars for Raphoe estate in Table E. of Appendix, incomplete. We have in all cases offered such abatements as under the circumstances of the year seemed just; and, subject to these abatements, we have endeavoured, where necessary, to enforce the rights of the Board.

The alterations in rentals since our last Report are very slight; such changes as have occurred are chiefly owing to the action of the Land Act. We append a table of the number of holdings on each estate, showing in how many cases rents have been fixed under the Land Act, and how many tenants hold in any other manner.

The general result of this year's collection of rent has been (taking no account of the Raphoe estate for the reasons given above) that out of a rental of £7,203 4s. 9d., there has been accounted for to us by our agents a sum (inclusive of the amount of rent abatements) of £6,840 12s. 0d.

Appended will be found (A), a List of Royal Scholars; (B), Regulations for Royal Scholarships in Trinity College; (C), a Table of Attendance at the various Schools under the control of this Board; (D), a Statement of Accounts for year ended 31st December, 1886; (E), a Table showing the Rental, &c., of the Estates of the Board; and (F), a Table showing the number of holdings on each estate, the number of rents fixed under the Land Act, and of other tenancies.

B.—ROYAL SCHOLARSHIPS IN TRINITY COLLEGE, DUBLIN.

REGULATIONS OF "THE COMMISSIONERS OF EDUCATION IN IRELAND," FOR 1887.

"The Commissioners of Education in Ireland" have founded Exhibitions called "Royal Scholarships," for students who shall enter Trinity College from the Royal schools of Armagh, Dungannon, Eniskillen, or Cavan. One scholarship of £40 and one of £30 will, if sufficient merit is shown, and if there are funds available for that purpose, be awarded in 1887 to candidates from Dungannon and Eniskillen; one of £25 to candidates from Cavan Royal school; and one of £30 to candidates from Armagh Royal School.

These scholarships can be obtained by such students only as have been three years in all, previously to their entrance into Trinity College, pupils in some one or other of the Royal schools. It is not, however, hereby intended to prevent pupils from moving from one of these schools to another; but the scholarships founded for the respective schools of Armagh, Dungannon, Eniskillen, and Cavan, can be obtained only by students who have entered the University from the schools for which such scholarships have been founded.

Subject to certain conditions hereinafter mentioned Royal scholarships are tenable for four years, save that on the Armagh foundation, which is tenable for two years, but with power to the Commissioners to extend same at the expiration of said two years for a further period of two years, if there are funds available for the purpose.

The present and senior fellows appoint examiners in each year, to examine, on the first convenient day after the second entrance, in the month of October, such students as have entered from the said four Royal schools, and shall offer themselves as candidates for these scholarships.

In 1887, the examinations will be in the subjects selected by the Board and Council of Trinity College for their Junior Exhibitions Examination. The scale of marks in both Examinations will be identical.

No student shall be admitted as a candidate, who shall not have remained at one of the Royal schools to which the scholarships are attached till the seniorship entrance examination next preceding the examination for Royal Scholarships at which he may be a candidate.

No other student shall be admitted as a candidate for a Royal scholarship who shall not have remained at one of the Royal schools to which the scholarships are attached till an entrance examination in Trinity

College, in the month of October next preceding the examination for Royal scholarships.

In 1887 no student who shall have attained 19 years of age on the 1st day of October can be a candidate for a Royal scholarship.

Each candidate shall produce to the Secretary of the Commissioners a certificate signed by the master of the Royal school from which he shall have entered Trinity College, certifying that he is duly qualified according to the above-stated rules; such certificate counter-signed by the Secretary to the Commissioners, to be subsequently handed by the candidate to the examiners.

No student can be a candidate a second time.

The candidates from all the schools shall be examined together, and a return made to the Commissioners of their positive merit, and also an arrangement of the candidates according to their answering, without distinction of schools.

The Commissioners reserve to themselves the power of suspending or distinguishing one or more scholarships if sufficient merit has not been shown.

A Royal scholarship becomes forfeited by the holder of it incurring any heavy collegiate censure, such as public admonition, or restriction; failing to proceed regularly with his class without the leave of the Board of Trinity College; or failing to obtain in any year either one honor of the first rank, or two honors of the second rank.

Each of the following distinctions is reckoned as equivalent to one honor of the first rank; a University Moderation—a University Scholarship—the Berkeley Gold Medal—the Vice-Chancellor's (Latin) Gold Medal—the Lloyd Exhibition—the Wray Prize—Success in the First Indian Civil Service (competitive) Examination, or at the Cooper's Hill Engineering College, or Woolwich or Sandhurst Entrance Examinations. And each of the following distinctions is reckoned as equivalent to one honor of the second rank; the election itself to one of the Royal Scholarships, obtaining a Respondee, or a first class at the Lectures.

The exhibitions become due half-yearly, viz., on the first of May, and on the first of November. Payments will be made in May to such students only as have obtained in the preceding part of that year at least one honor of the second rank. A half-yearly payment held over in May will be made in November, provided an honor has been obtained in the meantime; and

MILITON SCHOOL.

payment for the entire year will be made in November to such students as have not qualified for the May half-year's payment, and shall have then fulfilled all the requisites for the entire year. Payments in respect of Royal scholarships at each of the above-mentioned Royal schools, will only be made where there is residue of funds available for that purpose from the estate of that school after the payment of all prior charges upon the school funds.

In cases where very distinguished merit has been shown during their undergraduate course by students holding minor scholarships, and where scholarships for the same school remain suspended, or have been forfeited, the Commissioners will, at the close of each year, receive memorials from such students for an increase of their stipend.

The names of Royal scholars are placed on the college books, immediately after the names of the university scholars, without, however, altering their degree of seniority amongst their class fellows.

"The Commissioners of Education in Ireland" will grant annually two prizes, one of £30 and one of £20, to be competed for by such junior freshmen who shall, subject to the rules prescribed for the Royal schools, have entered Trinity College, Dublin, from Milston school, and shall have been examined along with the candidates for the Royal scholarships and in the same course.

The Commissioners reserve to themselves the right of withholding or reducing these prizes where sufficient merit has not been shown.

NOTE.—The course of examination for Royal scholarships may be varied from time to time by the Commissioners.

ROBERT McDOWELL, Secretary,

62, Upper Mount-street, Dublin.

18th November, 1886.
